

# Kompac Komplete

## UV & Aqueous Coating Cleaner

To keep your Kompac Coating Equipment or other UV and/ or Aqueous coating equipment operating like the day it was installed and ensure each job will have the visual appeal, lasting durability & outstanding finish your customers expect, it is extremely important to properly clean and maintain your coating equipment.

Make a switch to a more sensible solution today! Kompac recommends environmentally friendly **UV Klean** and **Aque Klean** as a part of your daily UV and Aqueous coating clean-up procedure!

Whether inline or offline, flexo or offset, to keep your UV and Aqueous coating operation spotless use **UV Klean** and **Aque Klean** - a **greener** alternative to IPA & Ammonia!

- Water miscible
- Low VOC
- No oily residue
- No blanket swell
- Meets US & Canadian environmental regulations
