built **Kompac tough** for a long life

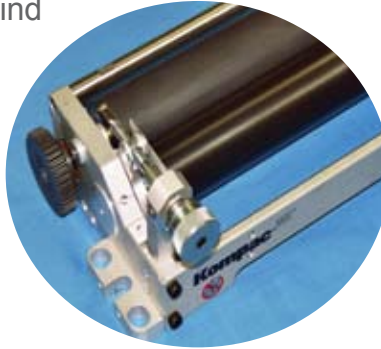

let kompac put you in the coating business

CREATING OPPORTUNITIES & PROFIT

Built with the same integrity and reliability as your Heidelberg Press, together the **Kompac Kwik Koat** & **Kwik Küre** create a one of a kind solution to UV & Aqueous coating!

Convert that unused & unprofitable single or multi-color Heidelberg GTO 46/52 & Printmaster to the most flexible and profitable coating system on the market today.

Whether your press is equipped with conventional, DDS or Alcolor dampeners, simply replace your existing dampening system with the patented **Kompac Kwik Koat** - coating unit and complete the conversion with the **Kompac Kwik Küre** - conveyor and UV curing station. Add a **Kompac Kwik IR Dryer** and you can easily upgrade you system to apply Aqueous coatings and primers.

PRINT AND COAT

Add a **Kompac Automatic Dampening System** to the conversion and continue to print. Design engineered to utilize the existing mounting hardware, the **Kompac Dampening System** installs in minutes. Remove the **Kwik Koat**, wheel back the **Kwik Küre** and install the **Kompac Dampening System** for superior print quality. Remove the dampener, reinstall the **Kwik Koat** and **Kwik Küre** and coat the job you just printed!

PERFECT FOR

- Heidelberg GTO Owners
