In order to keep your **Kompac EZ Koat** or **Kompac Kwik Finish** operating like the day it was installed it is important to maintain consistent UV bulb performance. **Kompac Komplete** UV Bulbs are guaranteed to maintain a consistent balance for 1000 hours.

To ensure that you do not experience downtime as a result of a less-than-adequate UV bulb, **Kompac** recommends that you keep a spare UV bulb in stock or purchase a replacement bulb prior to reaching the 1000 hour mark.
