Enhance the look and feel of your printed materials by using the Kompac Elite Label 10 - a small, yet powerful UV & aqueous coating and priming system capable of fitting label rolls or cut sheets up to 10" wide by any length. This compact desktop coater is the perfect inline/offline solution for smaller print jobs and provides production-level quality. Labels and sheets flood coated on the Elite Label 10 provide abrasion resistance and added durability for products with repeat handling and shipping, protection from the outdoor elements, and shields against chemicals, cleaners, fingerprints, foods and water. Whether digital or offset printing, the Kompac Elite Label 10 will enhance the aesthetic quality and create the ultimate finish with vibrant, rich colors and brilliant shine.

Kompac Coatings & Primers

A proper coating can enhance the appearance and durability, increasing the printed product's value. Kompac offers a wide range of finishing options, with a complete line of UV, aqueous, specialty coatings and primers available for all products. Whether you want to flood coat an entire substrate or add dimension to a printed product using 3D raised spot coating, Kompac will help you create a visually outstanding finished product! Place orders through our website, or by contacting our sales department. Available in 1, 2.5 & 5 gallon pails, these coatings can be ordered and shipped worldwide.

In addition to regular coatings, Kompac has developed custom coatings solutions for special applications, and aqueous primers such as Sapphire, Topaz and DigiPrime, as well as UV Gloss, Satin and Matte Primers for difficult to print on materials. These special purpose coatings can be used for the following applications:

- Soft touch • Writing/gluing • Dry erase • Silver/gold scratch off • Blister packaging
- Non-skid/sand • Food grade application • Playing cards • White opaque
